Having 6 months of experience in Automated Testing with Selenium and Java. Committed to continuous improvement and staying updated with the latest trends in frontend technology.

SKILLS:

- **Core Technologies:** HTML5, CSS3, JavaScript
- **Frontend Framework:** React.js, Tailwind CSS
- **State Management:** Redux
- **Build Tools:** Webpack
- **Backend Integration:** Express.js, Node.js, RESTful APIs
- **Version Control:** Git
- **Testing:** Jest, Selenium with Java

WORK EXPERIENCE:

Infosys Limited

Frontend Developer | 04 April, 2022 - Present

Retail Products Dashboard-

Led the development of a dynamic dashboard for store owners, revolutionizing how they interact with product data.

- Engineered responsive layouts using HTML5 and CSS3, ensuring seamless user experience across devices
- Leveraged React.js to create interactive components, significantly enhancing user engagement
- Implemented Redux for efficient state management, optimizing application performance
- Utilized Express.js and RESTful APIs for robust backend integration

Performance Optimization Initiative-

Spearheaded a project to enhance application speed and responsiveness, resulting in significant improvements:

- Increased application speed by 30% through strategic implementation of lazy loading techniques
- Reduced initial page load time by 2.5 seconds, enhancing user satisfaction and reducing bounce rates
- Boosted user engagement metrics by 25%, directly contributing to increased client satisfaction and retention
